FOREWORD

This is the seventh bibliography issued from the Educational Materials Center on recent books about education; it lists those received in the Center since the issuance of the sixth *Education—Literature of the Profession,* April 15, 1966 (OE–14031–37).

Copies of all books included are available for examination in the Center's new location at the Federal City College in Washington, D.C. The Center does not serve as a distribution agency for any but its own publications. Thus, the materials described in this and other bibliographies are not available from the Center; they may be obtained through the usual commercial channels or from the publishers.

Users of this list who wish information about other reports of the Center are requested to follow the directions under "Requests for Reports" on the inside back cover.

Entries are grouped according to subject under "Interpretation and Comment" and under "Bibliographies and Directories," as indicated on the *Contents* page. Most of the bibliographies are listed under "Bibliographies and Directories"; however, if the Center has received only one bibliography on a particular subject, the entry has been placed with the entries for the same subject under "Interpretation and Comment." A section on periodical publication is also included.

Annotations have been provided for individual books when the title is not self-explanatory. All booklets under 100 pages, listed here, are paperbound. Paperbound items of more than 100 pages are identified as "Paperback," except for U.S. Office of Education publications, which all have paper covers.

Place names for publishers have been omitted and a short form of identification used; complete names and addresses of publishers appear at the end of the bibliography.

REQUESTS FOR REPORTS

Single copies of reports prepared in the Educational Materials Center (EMC) are sent without charge to schools, libraries, and materials centers upon request. Bibliographic issues announce and describe recent materials received and inform educators in the United States and abroad as to the availability and relation of such materials to the curriculum.

A school or library wishing to receive future publications as they appear should write to the Educational Materials Center, U.S. Office of Education, Washington, D.C. 20202. A zip code is required for all entries on Office of Education mailing lists.

Requests from individual teachers and librarians wishing single copies of EMC reports should be addressed to the Publications Distribution Unit, U.S. Office of Education, Washington, D.C. 20202. Be sure to give the OE number as well as the title.

Some recent titles of reports which are currently available are listed below:
